The diagram illustrates the assembly of a cabinet (K) with various components labeled with circled numbers: 1A, 1B, 2, 3, 4A, 4B, 5, 6, 7, 8, 9, 10, 11. Two circular callouts provide additional details:

- Top Callout:** Shows a bracket (4A) being secured with a screw (WB) into a wall. The text reads: "Befestigungsmaterial für die Kippsicherung ist der Wandeigenschaft anzupassen!" (Fastening material for the anti-tip protection must be adapted to the wall property!).
- Bottom Callout:** Shows a drawer (8) being secured with a screw (9) into a panel (SKS). A warning symbol (triangle with exclamation mark) is present.

A large "2x" indicates that the assembly steps shown in the callouts are repeated for both sides of the cabinet. A detailed view of the drawer (8) and its mounting (9) is shown at the bottom right, along with a warning symbol (triangle with exclamation mark) and the text "MS9".
