The diagram illustrates the assembly of the KUBO storage cabinet, specifically focusing on the wall mounting process. The main illustration shows the cabinet's internal structure with shelves labeled 3, 4, and 10, and side panels 1A and 1B. A top rail is shown being attached to the back of the cabinet.

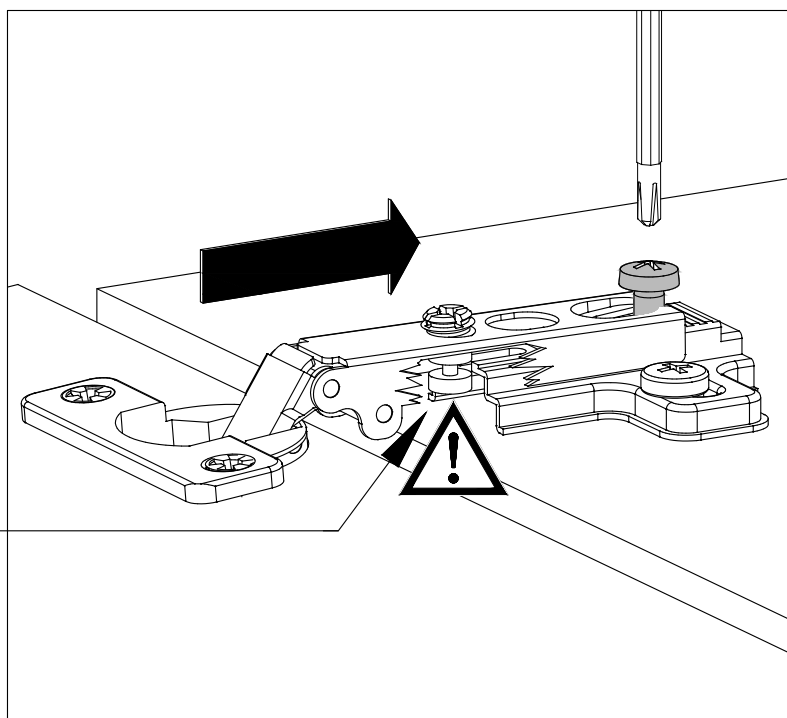

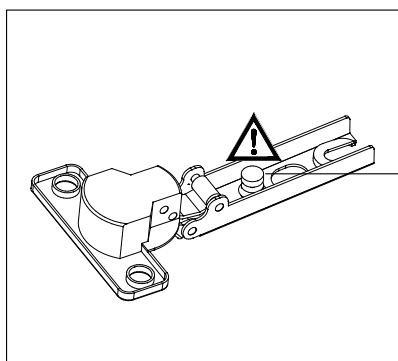

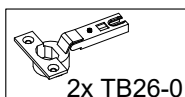

Wall Mounting Instructions:

- Warning Icons:** At the top left, three circular icons provide safety information:
 - A crossed-out icon of a person leaning against the cabinet, indicating it should not be used as a support.
 - An icon of a person standing next to a tilted cabinet, indicating the risk of tipping.
 - A warning triangle icon.
- Mounting Hardware:** The diagram identifies the "WBF" (Wall Bracket Fastener) and a "Ø6mm" drill bit.
- Steps:**
 - Step 1: Drilling a hole in the wall using the Ø6mm drill bit.
 - Step 2: Inserting the WBF into the drilled hole.
 - Step 3: Attaching the top rail to the WBF using a screwdriver.
 - Step 4: Tightening the screw with a power drill.
- Additional Notes:**
 - "Befestigungsmaterial für Kippsicherung ist der anzupassen!" (Mounting material for anti-tip must be adapted!)
 - "Attached wall-fastening for massive walls only. For other walls please use..."
 - "matériel de fixation pour d'inclinaison être adapté du mur"
 - "Beugel zowel aan de muur bevestigen om k..." (Brackets must also be fixed to the wall to prevent...)
- Accessories:** A separate box shows "4x BT" (4x BT screws) used for securing the shelves.

Bitte vermeiden Sie alkoholhaltige Substanzen wie Parfums und Deodorants, sowie scharfe Reiniger direkt auf den Glanz-Oberflächen. Nasse Flächen schnellstmöglich trockenwischen, damit die Feuchtigkeit nicht in die Oberfläche eindringt.
